Effective March 17, 2020, 8:00 a.m.

To Our Valued Customers;

At Lewis MacLean Plumbing & Heating the safety and well being of our customers and employees during these uncertain times is of the utmost concern. For your safety and the safety of our employees, we are taking all the necessary precautions and closely monitoring the COVID-19 situation from public health authorities.

At this time, we are continuing to provide the high quality service you expect from us. We will continue to remain available to you as long as we are allowed to operate. We will be ensuring that our technicians are taking precautions to protect the people in your home and that they are following a stringent personal hygiene policy. We will also be asking some questions upon booking a job with you to determine some of the health concerns, if any, there are in the home.

We are continuing to monitor this ever evolving situation and following all of the recommendations set out by the government and health authorities. We are confident in our plans to safeguard the health and safety of our customers and employees. For more information about COVID-19, please visit the [Government of Canada](#) website for ongoing updates.

Sincerely,
Tyler Dillon

President,
