To Our Valued Customers;

At Lewis MacLean Plumbing & Heating we are continuing to work hard to keep you home safe and trouble free during these unprecedented times. While providing the high quality services you expect, the safety and well being of our customers and employees is of the utmost concern. For your safety and the safety of our employees, we are taking all the necessary precautions and closely monitoring the COVID-19 situation from public health authorities on a daily basis.

While we are in Phase 3 and some of the freedoms to move about the province have been a nice change for a lot of people, we also recognize that we are in the second wave of our COVID-19 battle. Because of this, we at Lewis MacLean have made the conscious decision to keep all of the precautions in place that we initially implemented. Technicians will be wearing masks and gloves in your home, sanitizing tools and equipment after each job and are following a stringent personal hygiene policy. As well, they are required to stay home if there is any sign of illness. We will also be asking some questions upon booking a call to determine some of the health concerns, if any, there are in the home and if you require a contactless service call we can provide that as well.

We are continuing to monitor this ever evolving situation and following or exceeding all of the recommendations set out by the governments and health authorities. We are confident in our plans to safeguard the health and safety of our customers and employees. For more information about COVID-19, please visit the [Government of Canada](https://www.canada.ca) website for ongoing updates.

Sincerely,
Tyler Dillon
